Dear Reader,

This paper is being sent home with grade school students after much thought and debate. I'll try to explain why?

To put out a paper takes lots of work and co-operation. The cost is important too. But it is not the #1 concern. I wish some of you parents would take the time to come and watch the high school students put out a paper. We begin, working on it from 12:00 to 1:00 o'clock and then the girls in study hall work on it from 2:00 to 3:00 the last two days of the week. We feel that after all this work and time spent, the paper should at least be read, after it is sent home.

It was a rule before we came to Jewell that school be turned out at 3:00 on days when there is a basketball game. The basketball scheldule was printed in the paper twice and still we receive telephone calls wanting to know if school was out at 3:00 and why school was turned out at 3:00.

We felt we were wasting our time making enough papers for students and parents who don't read them. What do you think??

We are more than happy to give you a paper, but please read it.

By: Mrs. Goodman

TEACHERS CORNER

What is a "good player" in any kind of sports where a team is envolved? A "good player" is a person who first thinks of his team and wants his team to win instead of himself. Sometimes the player who does the most scoring is considered by some, the best player. Behind every "good player" there is always a team. Without his teammates to help him he would not be able to do a thing. The person who wants to be a "glory hound" will have very little respect for anyone but himself. A "glory hound" who tries to do all the playing by himself will lose the respect of his teammates and will also lose games for his team.

Any team that wins consistently will have all good players who puts the teams victories before anything else. This team will think of winning as a team and not as one individual player winning. Good teamwork is essential regardless of which player does the most scoring.

By: Charley O. Francis

Page 2

OFFICE COMMENTS

Mr. Dick Boss, the representive from the community college of Astoria, gave a talk to the student body last Wednesday morning. He explained the program they are trying to get started in this area. The courses consist of the requirments for the first two years of general college. The courses they are offering will be accepted by any state college in Oregon. The cost of these courses may seem higher, but when you take into condiseration the cost of room and board, you find it really isn't high.

We have two students enrolled in English 112, now.

I would like to have the views of all the people in the community on the spring carnival. The Senior class has been responsible for setting up the stands, advertizing, and the general running of the carnival. The Seniors have been receiving one half of the proceeds and the student body one half. The reason for the Seniors getting half the money was to help pay for their trip. The question is that some people think the money should go to the student body only. Others think the money should be shared with the grade school, and some think we should do away with the carnival altogether. Come to the parent teachers meeting February 4 and voice your opinion.

By: Mr. Goodman

CONGRATULATIONS

Our school's 1959 Betty Crocker Homemaker of Tomorrow award winner is Johanne Jeppesen.

She received the highest score in a 50-minute written examination on homemaking knowledge and attitude taken by graduating Senior girls. She will receive a homemaking pin, which represents the slogan, "Home is Where the Heart is." Her examination paper will be entered in competition with those of other school winners in the state to name the state Betty Crocker Homemaker of Tomorrow.

Each state Homemaker of Tomorrow will receive a $1,500 scholarship from General Mills, an educational trip April 4-10 with her school advisor to Washington, D. C., colonial Williamsburg, Va., New York City, and Minneapolis, and she will be a candidate for the title of All-American Homemaker of Tomorrow. The school of each state winner will receive a set of the Encyclopedia Britannica. General Mills will award a $500 scholarship to each state runner-up.

Winners are being chosen for 12,260 schools throughout the nation which enrolled 349,150 Senior girls, the largest number of participants in the five-year history of this $106,000 scholarship program.

The 1959 All-American Homemaker of Tomorrow will be announced in Minneapolis April 10 at the American Table Dinner in the Leamington Hotel's "Hall of States."

SENIOR NEWS

The Senior activities this six weeks was confined mostly to the Senior stand with the exception of a turkey shoot we had on December 14th. Sixteen turkeys were won and we made about $70.

Two of the Seniors reached the 18 year goal this six weeks. Edgar's birthday was January 2 and Jo's was January 22.

J. W., Edgar, and Jo were exempt from all their semester tests. We hope that all of the class will be exempt at the end of this semester.

We appreciate the way the kids have been paying their bills and certainly hope they continue to do this.

We still haven't decided where we are going on out trip yet and will welcome any reasonable suggestions of places we might be interested in visiting.

Two of the Seniors are enrolled in Wr. 112 (English Composition) in Astoria. Good luck Gleva and J. W. It is a lot of work, but maybe you can have that much of your college education behind you by the time school is out this year.

Our thanks go out to everyone who attended the turkey shoot and supported the Senior class in other ways.

We are very proud of the Senior class for having the highest average on our grades, which was 89+ for the semester. Keep up the good work!!!

By: Jo Jeppesen

JUNIOR NEWS

We have done good this semester on our candy sales. Thanks to the school kids and the sales at basketball games we have cleared a little over $47.00. We hope to make it a hundred dollars before the year is over.

If you want to help us beat the Seniors, money wise, buy candy from the Juniors. The prices are cheap and we have plenty of candy. We are selling it at all of the basketball games so look for it in the Senior pop stand.

The average of the Junior class for this semester is an 88+. We hope that we can keep this up for the remaining semester, and through our Senior year. We will all try to get a higher class average.

By: LeRoy Weatherman

SOPHOMORE NEWS

This six weeks the Sophomores have been just about as active as usual-fairly slow, in fact we've had no class meetings.

Only one or two of us had to take semester tests; several of us have been on the honor roll. Our class average is an 87+. We hope to bring it up next semester.

The only new classes that all of us will face this semester are literature and health.

(CON'T)

Page 4

(CON'T)

Some of us are droping courses, to take up new ones or in order to have a study hall.

The Sophomore class lost two of its members, Wayne and Marvin Larson. They are now attending Vernonia High School. Our class attendence is now eight when all are present.

By: Laura Borders

FRESHMAN NEWS

The past six weeks the Freshman class has been selling doughnut holes and successfully, too. Mr. Goodman gets thepaper bags wholesale and Mrs. Nicholson gives us the doughnut holes free of charge. So there is really very little overhead. Having sold 209 bags of doughnut-holes, we have $9.76 clear profit. We have no plans for our money as yet.

We added a new flavor to our doughnut holes so now sugar, cinnamon, and plain are available.

On January 26, we had a class meeting but nothing important was brought up.

Thanks to all the people who have co-operated with us by purchasing doughnut holes.

By: Johnnie Agren

HONOR ROLL

We are glad to have so many on the honor rolls this time. For the six weeks they are: Johanne Jeppesen, Edgar Berg, J. W. Smith, Rotha Fairchild, LeRoy Weatherman, Laura Borders, Judie Strachan, Katy Nordstrom, and Judy Nicholson made the "1" honor roll.

Those making the "2" honor roll were: Gleva Wilcoxen, Don Courtwright, Clinton Baker, Walter Berg, Geri Bochtolt, Cynthia Anne Slanger, Nicky Nicholson, and ChloEtta Weatherman.

For the first semester the following made the "1" honor roll: Edgar Berg, J. W. Smith, Johanne Jeppesen, LeRoy Weatherman, Rotha Fairchild, Laura Borders, Judy Nicholson, and Katy Nordstrom.

Those on the "2" list were: Gleva Wilcoxen, Walter Berg, Don Courtwright, Clinton Baker, Nicky Nicholson, Geri Bechtolt, Judie Strachan, and ChloEtta Weatherman.

SEMESTER AVERAGES

All of the grade averages were fairly high for the past semester; they were all in the 2 or 2+ bracket.

The averages were figured by taking all the semester grades of each student of a class and averaging them out together. P.E. grades were not included.

The final averages were: Seniors-89+, Junior-89-, Sophomores-87+, and Freshmen-87-.

By: Laura Borders

GEOGRAPHY

The previous six weeks we covered about five units in our book. Luckily they were short ones.

We finished our study of the Middle Western and Western States. Then we went on to study about Conserving Our Resources and Our Obligation to the Coming Generation. They were about how to conserve our forests, minerals, wildlife, and the health of our own people.

Then we went on to Transportation and Trade, Our Dependents Near and Far Away, Transportation, Communication and Trade the World Over.

We have made several maps and charts for the wooden map rack. Merle Tiedeman was nice enough to construct for us. Thank you, Merle.

Now we are starting out a new semester and hope to do much better than last semester.

By: Judie Strachan

9th MATH

This six weeks the freshman class has been struggling with problems of insurance and banking.

On insurance we studied several kinds of insurance such as: Ordinary Life, Limited Payment, Endowment, Accident, Coinsurance Clause. We also studied Social Security which is a type of insurance.

In banking we learned how to balance a check stub. Under the same topic we studied interest.

We are glad to welcome Judie S. and Phil who are joining our class for the 2nd semester.

By ChloEtta Weatherman

ENGLISH III

Everybody is happy for two reasons this six weeks in English class. We finished English and Mrs. Goodman isn't here anymore.

We studied How to Build Good Spelling Habits and Setting Standard for writing Themes. We wrote a theme about everyday and a five hundred word theme on the weekends, so you know why we are glad Mrs. Goodman isn't here anymore.

We've been studying Punctuation for the last tow six weeks and most of them are getting better at it everyday. We will be glad to get off that, because we had a test in that about twice week, besides the themes.

We will start reading literature this semester and Mrs. Francis will teach us.

We got new books this six so it should be fairly interesting.

We are all glad to see Mrs. Francis back teaching a whole day now.

By Butch Baker

Page 6

NINTH SCIENCE

This six-weeks we have been studying: How to build a Healthy Body; Four Ways to remove waste from the Body; How Energy is Released into the Body; The three Parts of the Brain which are the cerebellum, cerebrium, and the medulla; The parts of the Nervous System; and last, but not least, How Food is digested.

The freshman class was doing a demonstration which consisted of yellow Phosphorus. We took it out of a jar of water and put it on a peace of paper in a coffee can; let it set there until it got enough oxygen that was in the room to make it burn. We took it into the science room so the sophomore class could watch it. Water will not put the fire out very easily.

A book in the library said that they couldn't use it to make matches anymore because the fumes from it will make you have a rotten jaw.

Everybody made very good grades in our six-weeks test. Everyone was exempt from the semester tests. Smart kids, huh??

By: Mabel Weatherman

PHYSICAL SCIENCE

To start off this six-weeks we have been studying the mechanics of solids, liquids, and gasses. We found out the difference between speed and velocity, matter and motion. We also learned what the name mechanics stands for. We studied the laws of motion and the difference between potential and kinetic energy, adhesion and cohesion, the difference between ductuility, tenacity, malleability, and elasticity.

We also studied the nature of heat, the intensity of heat, and how it is made and measured. We were exposed to information on the uses of the three types of thermometers: centigrade, absolute, farenheit. We learned the ways heat may be transmitted, by conduction, convection, and radiation. From this section of the book, we traveled to the part of engines: intercombustion and steam. The types of steam engines are fire tube and water tube. The different types of intermal combustion are the deisel and gas principally. Also included with the section of engines was the use of the transmission in an automobile.

By: Walt Berg

TYPING 2

Not much news conserning Typing 2, this time. Sis and I are still holding our heads high and trying hard, despite the extraordinary progress of Typing I. We have consoled our selves with a determined drive for accuracy.

Although we will miss J. W. this semester, we wish him luck, as he studies diligently in his much needed study hall.

Our highs are:
Sis..... 71-o
Gleva..... 69-0

By: Gleva Wilcoxon

Page 7

HOME EC.

In home ec. this six weeks we have been sewing. The garments we have been sewing on are: a yellow chemise dress which Judi Strachan is making. A purple and white blouse is Geri's project. A black suit is being made by Jo. A red and white blouse is what Kiss is struggling with. A cotton dress is Gleva's job. It is for her little girl. a light green dress is what Mary Jane is working on. An apron is the project for Annie.

We are all happy to have Mrs.Francis back.

By Mary Jane

ENGLISH 1

We covered the 8 parts of speech, using verbs, to build sentences, using nouns to build sentences and diagraming.

We learned the principal parts and tenses of verbs and how to use troublesome forms such as follows: rise, raise, lie, and lay. Transitive and intransitive verbs gave us a little trouble, but finally we accomplished them.

We learned that an appositive is an expression which follows the noun and identifies or explains. A predicate nominative is a word that renames or means the same thing as the subjects. We learned to pick out direct and indirect objects.

Diagraming covered many sentences, and while some [illegible]t easy, others found it [illegible]d.

[illegible] concluded the semester with pronouns. Next somester we will have literature.

By Judy Berg

TYPING 1

The third six weeks the typing 1 class has done 30 and 20 sec. throws.

We have all been doing about a lesson a day.

Everyone has reached a new high in typing, they are as follow.

Geri 74-0
Walt 54-0
Butch 45-0
LeRoy 49-0
Annie 36-0

By Annie Scheuffele

SHOP

This six weeks in shop we made the following: LeRoy made a gun rack which he gave to his Dad for Christmas.

Buck made a plaque to mount his deer horns on.Congratulations for killing your first legal buck, Buck.

Ron is making a cedar chest for Judie Strachan. She is forcing him to do it.

Mr. Francis is making and putting up new back boards in the gym. If you were at the game last week you would know why.

By: Ron Nickolson

Page 8

AMERICAN GOVERNMENT

To start this six weeks off, we studied the Presidential cabinets and how they were put in office, How the president is elected, and how the Senate and the House of Represenitives is put in office, and what their respective duties are.

Also we studied the United States's Territories of which there are quite a few. To name just a few: Hawaii, Panama Canal Zone, Marianas, Baker, Holland, and Jarvis.

Studying these territories and possessions has been very interesting, and I hope we have learned something.

Mrs. Francis, our regular teacher, has rejoined us, and we are happy to have her back. Also, we would like to "Thank" Mrs. Gronnel for helping us along while Mrs. Francis was sick.

For the new Semester, we have a new book. It's about the history and geography of the United States. It should be very interesting- at least we hope so.

By: Buck Courtwright

GEOMETRY

The past six weeks the Geometry classes have been very busy, having studied about parallel and perpendicular lines.

This has delt with the drawing of parallel lines, and solving to see whether two or more lines are parallel. It also deals with the problem of perpendicular lines and how to prove lines perpendicular.

We have studied how to apply the synthetic and analytic methods of proving problems.

Jo, who has been taking Geometry the first semester, will not be with us this next semester. She will be taking study hall instead so she will have more time for her other studies.

The students of the class are not advancing as rapidly as we could, but plan to speed up a little for the next six weeks.

The next six weeks we will be studying the problems of construction, polygons, and areas of polygons.

By: Ed Borg

BIOLOGY

This six week we have been studying the human body in three different chapters.

The first one was on "Food and Oxygen". That is the digestive system, respitory system, circulatory system, and the excretion system.

The second chapter we studied was: "You and Your Food". In this chapter we studied the vitamins and minerals and the basic foods.

The last one we studied was "Internal Regulations". This told us about the glands in the body and how they work.

(CON'T)

(CON'T)

Most of us have improved our grades this six weeks. The biggest per cent of us got out of our semester tests.

Two members of our class have transfered to Vernonia High School; they are Wayne and Marvin Larson. Good luck boys.

By: Cynthia Anne Slanger

ANNUAL ADS

On January 14, the Student Body of Jewell High went to Astoria, Seaside, Vernonia, and Clatskanie for Annual Ads. Two cars went to each district.

The total amount taken in was $358.25. This was about $200 less than the amount taken in last year.

We would like to thank all of the people who have cooperated with us by buying ads in our annual. Also the people who have taken cars to the different vicinities.

By: Judy Nicholson

SEASON TICKETS

This year the Jewell Student Body has made available Season Tickets to the home basketball games, and the Vernonia game, there, February 24. The tickets cost $3.00 per person

If you have come to all of the home games, but have no season ticket, you may now buy a ticket and get a refund on the previous games. We have played 5 games and have 4 more scheduled.

By: Katy Nordstrom

"PUBLIC NOTICE"

One of the recent surveys at Jewell High School has turned up some of the most interesting but extraordinary stastistics. They are as follows:

FEET - If all of the students were stacked end on end their height would be 145 1/6 feet. If you add the teachers they would reach 23 1/3 feet more.

AGES- We are 414 years old (only the students however). The teachers (4 of them) are 133 years old.

WEIGHT- If we were all stacked on one scale (pity the one on the bottom), the scale would register 3,619 pounds. The teachers would raise it to 611 pounds. Fascinating, huh ?

by: Judie & Laura

Once a man went on a diet. First day he cut out liquids, Second day he cut out starches. Third day he cut out solids. Fourth day he cut out paper dolls.

HAPPY VALENTINE

FIRST AND SECOND

We are sorry to lose Sherrye Griswold from the second grade.

Those absent because of illness were: Dolores Keen, Susan May, Mary Louise West, Susan Borders, Donna Rodgers, and John Doyle.

Birthdays for January and February: Susan Borders, Jan. 8, Mary West, Jan. 14, James Stinnett, Feb. 11, Randall Horttor, Feb. 27.

THIRD AND FOURTH

TELEPHONE CONVERSATION

The third and fourth grades are studying telephone conversations in their English. We are getting two telephones. Steven Girt and Bonnie Larson brought them. They will each have a sheet of paper with the conversations on it. They will talk in their turn. When they are through they will let some one else have a turn.

By Linda Goodman
& Linda Norman

TO THE COMMUNITY CLUB

The third and fourth grades want to thank the Community Club for the peanuts, oranges, and the candy that they gave us for Christmas. We liked it very much.

By Diane Rodgers

GOING AWAY

Dwight Griswold has moved to Hillsboro. He is coming back to visit this summer. His address is: 1160 N. E. Lincoln, Hillsboro, Oregon. He would enjoy hearing from his freinds.

By Randi Wilcoxen

SEMESTER SPELLING TEST

Quite a few people in the third and fourth grade room did not have to take the Semester Spelling test. These are the people who did not have to take the test: Susan Smith, Diane Rodgers, Trina Roberts, Grace May, Susan Larson, Linda Goodman, Robert Cottam, Bonnie Larsen, Linda Norman, Sterling Doyle, Lois Smith, Randi Wilcoxen.

PERFECT ATTENDANCE

The people that were not absent this six weeks are as follows: Steven Girt, Bonnie Larsen, Linda Norman, Lois Smith, Danny Stinnett, Randi Wilcoxen, Robin Holmes, Diane Rodgers, Phil Samuelson, Susan Smith, and Sharon Basney.

FIFTH AND SIXTH GRADE NEWS
GRADE BASKETBALL GAMES

This year so far we have played: Birkenfeld, Westport, and Cannon Beach. We have lost each game we have played. Mr. Francis, our coach, is doing a find job. It isn't his fault we have lost. We are going to have a game with Olney, January 29. We will play the game there. They might beat us but we have just as good a chance of beating them.

Three boys from the fifth and sixth grades are playing with the seventh and eighth grade team. They are: Richard Basney, George Goodman, and Michael Tiedeman. Richard Basney has made 2 points; George Goodman hasn't made any, but is helping the team make points. Michael Tiedeman has made 34 points combined in 5th, 6th, 7th, and 8th grade basketball games.

By George Goodman and Michael Tiedeman.

THE SIX WEEKS SPELLING TEST

The six week spelling scores in the sixth grade are: Sharon Keen, 98; Michael Tiedeman, 98; Carol Hopkins, 97; Richard Basney, 99; Delmar Borders, 87; Robert West, 92; Lanette Siplinger, 80.

In the fifth grade: (All in the nineties). Dian Miller, 99; Carolyn West, 97; George Goodman, 99; Aloma Roberts, 99; Tommy Hammersley, 94.

Maybe next six weeks we'll all get a hundred.

By Carol Hopkins

PERFECT ATTENDANCE

The people that have had perfect attendance in the fifth and sixth grades are Carol Ann Hopkins, Sharon Keen, Richard Basney, Michael Tiedeman, George Goodman, and Dian Miller.

By Lanette Siplinger

GIANT TREE DWARFS MAN

In our room is a picture of a giant tree. It's in the Necanicum picnic area five miles south of Seaside. This tree is the world's largest Sitka spruce. The height is 195 feet and it measures 15 feet and 9 inches in diameter. It's 60 feet to it's loweet limb.

By Carl Scheuffele

SEVENTH AND EIGHTH GRADE NEWS
BOY'S GYM

We have played 5 games now and have been defeated in all of them. We have played Westpott, Birkenfeld, and Cannon Beach. Mr. Francis has scheduled several more games. We hope we can win them all.

By Arthur Normand

Sign on the back of a small foreign sports car: "Quit honking. I'm pedaling as fast as I can."

(CONT'T)

SHOP

The boyss in shop are going to start working on their projects in a little while. Right now we are getting ready to make our projects. The boy's in shop are making projects as follows: Jim Borders a book shelf; Dennis Wilcoxen a cribbage board; Mike Cottam a toy box; Harold Rasney- a saw horse; Arthur Normand- a T. V.-table; Kenneth Logan- a T. V. table.

By: Kenneth Logan

BOY'S GYM

We have played 5 games now and have been defeated in all of them. We have played Westport, Birkenfeld, and Cannon Beach. Mr Francis has scheduled several more games. We all hope we can win them all.

By: Arthur Normand

EIGHT GRADE PROJECT

The Eight Grade boys are putting together a Model Oil Refinery given to them by the Standard Oil Company. It is approximately 22 by 30 inches in size. It will be displayed in the seventh and eight grade room at the end of the school year.

By: Jimmy Borders

TRIP TO HISTORICAL VAN

This six weeks the Third grade through the Eighth grade went to Seaside to see the Oregon Historical moving van. We saw how the people wrote both vertically and horizonally to save paper. We also saw the tomahawk that killed Marcus Whitman. We saw many other interesting things.

By: Linda Keen

Ted: Why are hurricanes named after girls?
Jed: Did you ever hear of a "himmicane?"

Father: Danny, why did you kick your little friend?
Danny: I wanted him to go home.
Father: why didn't you ask him to leave?
Danny: That wouldn't have been polite.

Teacher: In what battle did General Wolfe cry, "I die happy"?
Voice from back of room: His last one.

Some folks say that fleas are black,
But I know it's not so
Focacuse Mary had a little lamb
With fleece as white as snow.

GIRLS SPORTS

This six weeks we had one volleyball game with Knappa. The "A" team won their game 45-24. Jo was high point. The "B" team won their game 46-26. Elsie was high point.

We brought a close to our volleyball season for the year with a tournament between the girls in the P.E. class. Judie and Elsie chose up sides, the Blue Jays and the Mighty Warriors. The Mighty Warriors won three out of five games, and the tournament with a final score of 63-59.

For the year high point in volleyball has been: "A" team, Jo Jeppesen with 76 points; "B" team, Elsie Coleman with 74 points.

We are now playing basketball and we are hoping to have lots of fun at it, once we learn the rules.

By: Elsie Coleman

BOY'S SPORTS

So far this year the Varsity have won 9 games and lost only 3, but two of those were league games. Altogether we have played 14 league games and won two. We hope to win the rest of our league games.

The first game we played this six weeks was with Eddyville. The Jewell J.V.'s played a good game, but just did not quite get enough points as they lost by one point; Eddyville J. V. 21, Jewell J. V. 20. Phil Layman and B. Nystrom were high for the team with 6 points each.

The Jewell Varsity won their game by a score of 42 to 25. Eddyville couldn't do too much with the Jewell team. For they were playing fairly well that night. High point man for Jewell was B. Baker with 11 points. The other players ranged from 4 to 9 points.

The following game was won by the Jewell Varsity over the Seaside J.V. team, 37 to 26. Our high point man was Don Courtwright with 12 points.

The next game was played at Astoria with the Astoria Freshman. The second team lost by nine points. High point for the team was Bob Nystrom and Nick Nicholson with 6 points each.

The varsity won their game by a score of 44 to 33. It was an easy victory for the Blue Jays. Buck lead the scoring column with 11 points. Everyone scored, and the scoring was very even.

The next game was our first league game with Nehalem as the opponent. The Jewell J. V.'s lost the first game by a score of 42 to 35. High point for the night was Walt Berg with 9 points. Close behind was Nick Nicholson with 8 points. The percentage on field goals for the night were as follows. Nystrom---33%, Layman-33%, Larson, W.-18%, Nicholson-16%, Walt Berg-14%, and Larson, M.-12%.

Our Varsity team, however, was more fortunate as we won our game by 2 points. It was a very close game though. The

(CON'T)

(cont)

high point honors were divided between: J. W. Smith, LeRoy Weatherman, and Buck Courtwright, who all had 7 points. Just below them was Butch Baker with 6 points and Edgar Berg with 5 points. The percentages on field goals were: J. W. Smith-60%, Butch Baker-40%, LeRoy Weatherman-33%, Buck Courtwright-25%, and Ed Berg-20%.

The next game was also a league game with Star of the Sea in Astoria. The Jewell J. V.'s lost by the score of 35 to 20. Hard luck just seemed to go with them.

The first team found a very hard team to cope with and they lost their first game of the season by a score of 56 to 35. We were behing just 3 points at the half. The last half of the game they began to pull away from us. LeRoy was high point for the night with 19 points. We hope to beat them on our own court so come see us play February 6.

Knappa edged us out in our second league loss by a score of 44 to 34. Buck was high point man again with 10 points, followed by Ed with 9 points.

The Jewell J.V.'s lost to Astoria(second team) by a score of 40 to 35. Our high point man was Robert Nystrom with 14 points. Bob really looked good. Walt made 10 points.

Jewell Varsity again won against the Astoria Freshman. The score was 58 to 23. Buck was high point with 17 points.

The Jewell J.V.'s lost to Seaside in the next game by a score of 48 to 37. Walt was high with 16 points.

The Jewell first team won their game over Seaside J.V.'s by a score of 66 to 34. LeRoy was high with 24 points, with Buck close behind with 20.

The Varsity lost to Vernonia next by a score of 74 to 38. Buck had 11 points and J.W. had 10.

Our last game was a league game with Tillamook Catholic. This was our second league victory as we won by a score of 65 to 51. High point for the night was Butch Baker. It was Butch's birthday (17) and he made 17 points. LeRoy made 14 points, Buck-13, J.W.-12, Ed-5, and Walt-4. The percentages were as follows: Walt-66%, Butch-50%, LeRoy-47%, J.W.-47%, Buck-40%, and Edgar-25%.

SUNSET LEAGUE STANDINGS

Team	Won	Lost	P.F.	P.A.
Stars	3	0	182	126
Knappa	2	1	146	118
Jewell	2	2	166	181
Nehalem	1	2	133	139
Tillamook C.	0	3	123	186

The number of games and the averages are as follows: Buck-12 games----average----10 points; LeRoy-12 games-average 10.1; Butch-12 games---average 7.3; J. W.--11 games--average 6.3; Edgar-12 games---average 7.6; and Walt-12 games-average 3.5.

GOSSIP

What happened the 17th, Chlo-Etta?? Boy, would we like to get a hold of your diary.

We like your new glasses Judy B. they make you look real studious. But the thing that really counts is..Does Philip like them??

Oh, come now Gloria, It may seem like a year, but it hasn't been that long since he left!!!

We know some steady couples around school that seem to be fighting quite a lot lately. (Not mentioning names) Really kids, the fighting comes after your married.

Who is the Gay Casinova who is giving you the rush JO??? Good Luck!!

Hey Walt, who is the apple of your eye?? We know about three hopeful girls. By the way, we like your glasses too.

Why were you so mad about those colorful lights in that car, Ciss??? Tell us Huh??

J. W., LeRoy, Ed, and Walter did you ever get that date you wanted with your new girl-friend? We hear you were driving back and forth in front of her place the other night, trying to get up enough nerve to ask her out.

Hey Buck! What ya gonna do, Fight it out with Bert???

By: Ciss and Geri

You had better give up on saving your glasses, Katy. P. E. class doesn't seem to agree with them.

Geri!!! Why do you seem to be busy at the most inconvenient times?? These coincidences are beginning to look fishy.

Oh! Oh! Elsie, you had better start taming down your dreams.

Congratulations Nick, your girl friend is real cute.

Why are you always going around sniffing at sailors, Judie S.?? On second thought maybe you had better not answer that question. (you and your ideas Ronnie!)

Cynthia, What happened to you and J. W.??? You made such a cute couple too.

Judy N., you must never get mad at the customer when you are selling doughnut holes.. remember, the customer is always right.

Why didn't you tell us about this new interest of yours Mabel?? We wish you luck.

Glad to see that Bob and Cathy are getting along fine.

Well, Laura and Butch and Johnny, you've been such little angels this six weeks that we can't even think of any gossip on you. Keep up the good work.

Mary Jane has been running around with a dreamy look in her eyes lately. New secret love, Mary???
